VOTE IN THE GENERAL ELECTION: TUESDAY, NOV. 6 OR BY ABSENTEE BALLOT BEFORE NOV. 6!

PRESIDENT'S MESSAGE

The stakes are high:
Why we should prioritize
life on Election Day

BY LEO LALONDE

WHEN YOU HEAD TO THE POLLS on Nov. 6, remember the importance of the right to life. And remember exactly what is at stake.

Candidates will make life-or-death difference

Abortion isn't like other political issues. **With abortion, a whole class of innocent human beings is denied the basic protection of the law and allowed to be killed on a massive scale.** The moral gravity of this issue makes it a uniquely important problem in American society today.

Laws and public policies, moreover, can have a major effect on the practice of abortion (see article on right). They can increase or decrease protection for unborn children. They can increase or decrease the number of unborn children killed. They can help women find positive and compassionate alternatives to abortion—or fund Planned Parenthood instead.

And the candidates we elect to office determine what our laws will be. Elections make a life-or-death difference.

Races have huge implications

A number of crucial races will be on your ballot in this election:

Minnesota House. A pro-life majority in the Minnesota House is necessary to pass any pro-life legislation. That majority is on the line in November.

Governor. A pro-life governor is necessary to sign pro-life bills into law. Over the last eight years, numerous pro-life bills—measures that would have reduced abortions and saved lives—were vetoed by Gov. Dayton.

Tim Walz and Jeff Johnson are now running to replace him. Walz promises the same no-limits-ever approach to abortion, opposing any and all pro-life legislation. Johnson, by contrast, is strongly pro-life and supports protection for unborn children and their mothers.

Attorney General. The attorney general is Minnesota's chief law enforcement official, but Keith Ellison, who supports unlimited abortion, is running for the job promising that he won't defend pro-life laws if they are challenged in court. His opponent, Doug Wardlow, is pro-life and pledges to defend laws protecting the unborn.

U.S. Senate. Both of Minnesota's U.S. Senate seats are on the ballot this year. Control of the Senate will determine, among other things, whether good judges can be confirmed to the federal judiciary, which often decides whether pro-life laws are upheld or thrown out.

In one Senator race, Karin Housley, who is pro-life, faces Tina Smith, who was an executive at Planned Parenthood. Smith opposes all protection for unborn children. In the other race, Jim Newberger, who is pro-life, faces Amy Klobuchar, who supports abortion.

U.S. House. Minnesota's eight U.S. House seats are all on the ballot, and four are expected to be very close races. A pro-life majority in the House is necessary for any federal pro-life legislation to be passed.

In Minnesota's 1st Congressional District, pro-life Jim Hagedorn faces pro-abortion Dan Feehan. In the 2nd District, pro-life Jason Lewis faces pro-abortion Angie Craig. In the 3rd, pro-life Erik Paulsen faces pro-abortion Dean Phillips. And in the 8th, pro-life Pete Stauber faces pro-abortion Joe Radinovich.

HOW PRO-LIFE
LAWS SAVE LIVES

The election of pro-life candidates leads to pro-life laws that reduce abortions

BY PAUL STARK

SOME PEOPLE BELIEVE that the election of pro-life candidates to public office does nothing to reduce abortions or protect unborn children. But that's simply not true.

The success of pro-life candidates has led to the enactment of pro-life laws and policies at both the state and federal level. And those laws have saved many lives from abortion.

LAWS REDUCE ABORTIONS

Although legalized abortion is (currently) required by the U.S. Supreme Court, certain laws can still be enacted for the benefit of unborn children and their mothers. **And a substantial body of research shows that these pro-life measures (e.g., informed consent, parental involvement, bans on taxpayer funding of abortion) help to modestly but significantly reduce the incidence of abortion.**

Consider some of the evidence here in Minnesota:

- ▶ The Woman's Right to Know informed consent law was enacted in 2003. Under this law in 2017 alone, 1,161 abortion-minded pregnant women opted against abortion after receiving basic factual information about abortion risks and alternatives.
- ▶ The Positive Alternatives Act of 2005 created a program to provide grants to pregnancy care centers and other programs that assist women

Congressional candidates respond to survey

PRO-LIFE LAWS
MCCL and our national affiliate, National Right to Life Committee (NRLC), have supported the passage of many pieces of lifesaving legislation on the federal level.

1. Will you use your vote to maintain any pro-life law or policy that is in effect on the day that you are elected?

INCREMENTAL STRATEGY
MCCL and NRLC have a proven record of crafting and implementing a strategic plan for creating a pro-life nation. This strategic plan involves an incremental approach which allows for the greatest number of lives saved while working toward our ultimate goal of establishing respect for human life in our laws and culture.

2. Will you vote for lifesaving legislation that advances this incremental approach and provides protections for the unborn and their mothers?

ABORTION INDUSTRY FUNDING
The federal government is often asked for funding for the abortion industry, including subsidies for abortion and abortion providers as well as foreign aid for abortion industry subsidies and abortion advocacy. Even many who support abortion are not supportive of using taxpayer funds to support abortion.

3. Will you vote to limit and to prohibit taxpayer funding of the abortion industry?

LIFE-DESTRUCTIVE RESEARCH
4. Would you vote for legislation to prevent federal support of research

that harms or destroys human life at any stage of development, or that uses cells or tissues that are obtained by harming or killing human life at any stage of development?

DENIAL OF LIFESAVING MEDICAL CARE
Numerous policies have been sought, and in some cases made law, that deny patients health care based on quality of life criteria. Examples include the creation through the Affordable Care Act of the Independent Payment Advisory Board (IPAB) and hospitals that have implemented formal policies authorizing denial of lifesaving medical treatment against the will of a patient or the patient’s family if an ethics committee thinks the patient’s so-called “quality of life” is unacceptable, even though the patient and family disagree.

5. Will you vote to prohibit involuntary denial of lifesaving medical treatment against the will of the patient?

ASSISTED SUICIDE
Across the country, there are increasing efforts to legalize assisted suicide.

6. Will you vote against any attempts to legalize assisted suicide?

FREE SPEECH RIGHTS
As a grassroots advocacy organization that is committed to working within the legislative process, MCCL has always had an interest in issues that affect elections. We are strongly committed to maintaining free-speech rights in order to maximize our ability to communicate with our members and the public without restrictive administrative burdens.

MINNESOTA LEGISLATIVE CANDIDATES ANSWER MCCL SURVEY

FOLLOWING ARE RESPONSES of candidates for the Minnesota House of Representatives (and one special Senate race) to the questions on this page. Use the response key below to interpret the chart. You are represented by one state representative.

Incumbents' pro-life voting records for the last year (2018) are listed following their responses to the MCCL questionnaire. You may wish to compare incumbents' responses with their pro-life voting record.

1 MCCL has supported the passage of many pieces of lifesaving legislation. These include, but are not limited to, parental notice for minors seeking an abortion; informed consent, including information on fetal pain and the offering of pain reducing drugs for the unborn child during an abortion; abortion reporting requirements, and providing grants to organizations that offer positive alternatives to abortion. **Will you vote to maintain previously passed MCCL-supported laws and provisions?**

2 MCCL has a proven record of lifesaving victories at the Legislature, each carefully crafted to further our strategic plan for creating a pro-life Minnesota. This strategic plan involves an incremental approach which allows for the greatest number of lives saved while working toward our ultimate goal of establishing respect for human life in our laws and culture. **Will you vote for lifesaving legislation that advances MCCL's incremental approach and provides protections for the unborn and their mothers?**

3 Even many who support abortion are opposed to taxpayer funding of abortion. **Will you vote to limit and to prohibit taxpayer funding of abortion in Minnesota?**

4 Biological-related technologies have been advancing rapidly in recent years. While most of these developments offer great promise, some require that another human life at an early stage of development be harmed or killed

(e.g., embryonic stem cell research, human cloning). **Do you believe that the state should provide protections for nascent humans against biological research and technologies?**

5 MCCL has worked with elected officials to protect vulnerable Minnesotans and those who are nearing the end of their lives. Many protective laws have been passed including a prohibition on assisting suicide or assisting an attempted suicide (MN Statute 609.215), and a provision requiring health care providers to "take all reasonable steps" to comply with requests for nutrition, hydration or health care that "has a significant possibility of sustaining" a patient's life and allowing for transfer of such patients to receive care elsewhere if the provider is unwilling to provide the care (MN Statute 145C.15). **Will you vote against any attempt to weaken or rescind the MCCL-supported laws cited above?**

6 Legislation was introduced to legalize assisted suicide (S.F. 1572/H.F. 1885) for certain individuals. **Will you vote against any attempts to legalize assisted suicide in Minnesota?**

7 MCCL respects the right of patients and/or their proxies to make medical decisions. Additionally, MCCL is opposed to any efforts that seek to force medical decisions on others which are based on quality of life criteria. **Will you oppose efforts that replace the patient (or proxy) with government standards in regard to medical decision-making, resulting in rationing of care?**

8 As a grassroots advocacy organization that is committed to working within the legislative and judicial processes, MCCL has always had an interest in issues that affect elections. We are strongly committed to maintaining free-speech rights in order to maximize our ability to communicate with our members and the public without restrictive administrative burdens, and we support fair, secure elections between competing candidates. **Do you share MCCL's commitment to maintaining free-speech rights for non-profits and PACs and to insisting on fair, secure elections between competing candidates?**

How MCCL is making a difference

BY PAUL STARK

None of our work is possible without the continuing support of compassionate Minnesotans

FIFTY YEARS AGO, IN 1968, a small group of Minnesota citizens formed an organization to resist the killing of unborn children through abortion and defend the equal dignity and right to life of every human being. **MCCL has been working ever since to protect human life from abortion, infanticide, and euthanasia.** We've grown to include 70,000 members with chapters all across the state. As Minnesota citizens concerned for life, we make a difference in numerous ways.

Education, legislation, political action

MCCL educates the public about the humanity of the unborn child and the inhumanity of abortion. We use pro-life literature, speaking presentations, social media, booths at fairs and conferences, and much more to share the pro-life message. **MCCL events like Student Day at the Capitol and Life Leadership Camp help train the next generation to be pro-life leaders.**

MCCL participates in the legislative process by shaping pro-life legislation and lobbying elected officials to support pro-life bills and oppose anti-life measures. MCCL events like the March for Life and Legislative Dinner raise awareness and generate support for our pro-

life legislative initiatives.

Through the efforts of MCCL lobbyists and grassroots pro-lifers, **many pro-life bills have become law in Minnesota, and these laws have helped reduce the number of abortions.**

MCCL's two political action committees (PACs) actively support pro-life candidates for public office. The MCCL State PAC helps to elect state-level candidates; the MCCL Federal PAC helps elect candidates for federal office. **The success of pro-life candidates is necessary to enact pro-life laws and policies.** (Funds for PACs are raised separately from other MCCL funds.)

Success in Minnesota

Over the last five decades, through the work of MCCL and our supporters, many citizens have been informed and persuaded, many laws have been enacted, many pregnant women have received support and assistance—and the incidence of abortion has dropped significantly. **But abortion remains the leading cause of human death, and assisted suicide has emerged as a serious threat.** Much more work remains to be done.

You can join our efforts to protect the most vulnerable by becoming a member of MCCL (see page 11). Our members are the foundation of MCCL. **None of our work is possible without the continuing support of compassionate pro-life Minnesotans.**

Together, we can save lives! **MCCL**

Where do the Candidates for Governor Stand on LIFE?

TIM WALZ

JEFF JOHNSON

Supports abortion on demand. Compiled a 0% pro-life voting record in his 12 years in Congress.	Abortion on Demand	Supports the protection of unborn children by prohibiting abortion on demand. Supports passage of lifesaving pro-life laws.
Has voted in favor of embryo-destructive research.	Embryo-Destructive Research	Supports protections for human life at its early stages against destructive research and technologies.
Has voted against a ban on taxpayer funding of abortion.	Taxpayer Funding of Abortion	Supports a ban on taxpayer funding of abortion in Minnesota.

Candidates for Minnesota Attorney General

Keith Ellison

Ellison compiled a 0% pro-life voting record while in the U.S. House of Representatives. He voted against the protection of babies born alive in botched abortions, and against protecting unborn children from abortion at the point they are able to feel pain.

Ellison said "he won't defend new abortion restrictions in court if state lawmakers approve them." (MPR News)

Doug Wardlow

Wardlow compiled a very strong pro-life voting record while in the Minnesota House of Representatives. He voted in favor of a ban on taxpayer funded abortions, and for the protection of unborn children from abortion at the point they are able to feel pain.

Wardlow said, "I will defend the laws of the State of Minnesota, including our laws protecting the unborn."

Questions about voting?

ONLINE—To find your voting location and district numbers, go to the Minnesota Secretary of State's website, www.mnvotes.org.

TELEPHONE—For information about voter registration, voting locations and absentee voting, call your county auditor. If you cannot find the phone number for your county auditor's office, contact MCCL at mccl@mccl.org or 612-825-6831.

REGISTRATION—To register to vote, to find out whether you are already registered or whether you may legally vote, and more, go to www.mnvotes.org—click on Register to Vote. You can register online, by mail or in person. Register in advance by Oct. 16 to save time at the polls on Nov. 6. For assistance, call the Secretary of State's office at 1-877-600-8683 or contact your county election office.

YOUR BALLOT—You may now view your election ballot online prior to Election Day. Visit www.mnvotes.org—click on What's On My Ballot? Your sample ballot should be available by Sept. 23; not all local elections may be included. Need help? Call 1-877-600-8683 or contact your county election office.

REMEMBER—You may register to vote by absentee ballot or on Election Day at your local polling location, as long as you are a U.S. citizen at least 18 years old and can provide proof of residence. You will need to provide one of the

following with your current name and address: driver's license, state ID card, student photo ID, tribal ID, or an expired photo ID, or a current utility bill or student fee statement. More details are available at www.mnvotes.org—click on Election Day Voting.

Voting by absentee ballot

The General Election is Tuesday, Nov. 6. You may vote by absentee ballot for any reason.

The easiest way to vote by absentee ballot is to do so in person, at your county auditor or city or township clerk's office. Contact your county auditor for details. If you would rather mail in your ballot, you can order your absentee ballot online. You will need a witness when you fill out your ballot.

Instructions for absentee voters who vote through the mail can be found at the Minnesota Secretary of State website, www.mnvotes.org—click on Other Ways to Vote.

Your ballot must be mailed in time to be delivered by Election Day, or hand delivered. **For more information**, contact your county auditor (see above) or the Secretary of State's office via e-mail at secretary.state@state.mn.us or by phone at 651-215-1440, greater Minnesota toll free at 1-877-600-8683. **MCCL**

Governor, state office candidates respond to survey

1. MCCL has supported the passage of many pieces of lifesaving legislation. These include, but are not limited to, parental notice for minors seeking an abortion; informed consent, including information on fetal pain and the offering of pain reducing drugs for the unborn child during an abortion; abortion reporting requirements, and providing grants to organizations that offer positive alternatives to abortion. *Do you support these previously passed MCCL-supported laws and provisions?*

2. MCCL has a proven record of lifesaving victories at the Legislature, each carefully crafted to further our strategic plan for creating a pro-life Minnesota. This strategic plan involves an incremental approach which allows for the greatest number of lives saved while working toward our ultimate goal of establishing respect for human life in our laws and culture. *Do you support MCCL's incremental approach and will you work with MCCL (as appropriate to the office you are seeking) to advance the approach?*

3. Even many who support abortion are opposed to taxpayer funding of abortion. *Do you support limiting and/or prohibiting taxpayer funding of abortion in Minnesota?*

4. Biological-related technologies have been advancing rapidly in recent years. While most of these developments offer great promise, some require that another human life at an early stage of development be harmed or killed (e.g., embryonic stem cell research, human cloning). *Do you believe that the state should provide protections*

for nascent humans against biological research and technologies?

5. MCCL has worked with elected officials to protect vulnerable Minnesotans and those who are nearing the end of their lives. Many protective laws have been passed including a prohibition on assisting suicide or assisting an attempted suicide (MN Statute 609.215), and a provision requiring health care providers to “take all reasonable steps” to comply with requests for nutrition, hydration or health care that “has a significant possibility of sustaining” a patient’s life and allowing for transfer of such patients to receive care elsewhere if the provider is unwilling to provide the care (MN Statute 145C.15). *Do you support the*

MCCL-supported laws cited above?

6. Legislation was introduced to legalize assisted suicide (S.F. 1572/H.F. 1885) for certain individuals. *Do you oppose the legalization of assisted suicide in Minnesota, and will you work with MCCL (as appropriate to the office you are seeking) to stop assisted suicide?*

7. MCCL respects the right of patients and/or their proxies to make medical decisions. Additionally, MCCL is opposed to any efforts that seek to force medical decisions on others which are based on quality of life criteria. *Do you oppose efforts that replace the patient (or proxy) with government standards in regard to medical decision-making, resulting in rationing of care?*

8. As a grassroots advocacy organization that is committed to working within the legislative and judicial processes, MCCL has always had an interest in issues that affect elections. We are strongly committed to maintaining free-speech rights in order to maximize our ability to communicate with our members and the public without restrictive administrative burdens, and we support fair, secure elections between competing candidates. *Do you share MCCL's commitment to maintaining free-speech rights for non-profits and PACs and to insisting on fair, secure elections between competing candidates?* **MCCL**

PRO-LIFE LAWS continued from PAGE 2

in difficult circumstances and offer life-affirming alternatives to abortion. **Tens of thousands of women statewide have since been helped through the Positive Alternatives program.**

- ▶ The number of abortions performed on Minnesota minors peaked in 1980 at 2,327. In 1981 Minnesota passed a law requiring that both parents be notified at least 48 hours before an abortion is performed. Minor abortions have since plummeted 89 percent to just 248 in 2017.

WE CAN DO SO MUCH MORE
Thousands of Minnesotans are alive today who

would have been killed in utero if not for pro-life laws. Those laws continue to save lives from abortion every day.

But they would not exist if we had not elected pro-life candidates to public office. **And no new pro-life laws can be enacted if we do not elect pro-life candidates in 2018.** In recent years, many pro-life efforts in Minnesota—including bills banning taxpayer funding of abortion and protecting pain-capable unborn children—failed precisely because voters had chosen candidates who support abortion.

Progress has been made, but abortion remains the supreme injustice in Minnesota. **We have an opportunity to do so much more beginning on Nov. 6.** **MCCL**

WHETHER YOU'RE A LONG-TIME MCCL MEMBER or have never heard of our organization, we hope you find this Voter's Guide useful as you prepare for Election Day on Nov. 6.

Minnesota Citizens Concerned for Life is the state's oldest and largest pro-life organization with more than 70,000 members and 200 chapters statewide. Our mission is to use education, legislation and political action to secure protections for innocent human life from conception to natural death.

ALL HUMANS HAVE RIGHTS

We stand up for the basic dignity and right to life of every member of the human family, at every stage of development, regardless of age, size and ability. That means we oppose the killing of unborn children by abortion and we want to assist pregnant women in need.

We oppose human cloning and the destruction of embryonic human beings for research, and we support ethical adult stem cell research that is effectively treating patients.

We oppose euthanasia and health care rationing based upon "quality of life" criteria, and we acknowledge the equal dignity and worth of persons who are elderly or disabled.

MCCL is the leading advocate of pro-life legislation at the state Capitol in St. Paul. We hold an annual March for Life on Jan. 22 to commemorate the lives lost to abortion and to call for protective laws. At www.mccl.org you can read about our many other educational and legislative activities.

HELP MAKE A DIFFERENCE

We invite you to join with us today. A small donation of \$5 or more is all that is necessary for membership and a free subscription to MCCL News, which will keep you up to date on the latest pro-life news and MCCL events.
