

We want an end to Minnesota's abortion-until-birth policy!

In 2018, 117 abortions in Minnesota took place at 22 weeks gestation or later, when scientific evidence shows unborn children can experience pain while being killed. Legislation supported by MCCL will take the first step toward ending Minnesota's abortion-until-birth policy by protecting these pain-capable unborn children.

Your signature on this petition will enable you to receive pro-life communications from MCCL, including automated calls on pro-life issues.
